### Mission of Crossroads College

Crossroads College serves Christ and his Church through academic excellence in a Christ-centered education, by developing Christian leaders who impact the world for Christ and by providing resources to strengthen churches and enrich the community.

### Course Description

The practicum and internship is intended to provide the student with an opportunity to apply what has been learned in the classroom to a “real life” environment. The intern will be mentored at the internship site by a supervisor whose qualifications have been established with the specific Faculty Advisor. The nature of the internship and the site chosen will depend upon the student’s vocational goals and availability of time. The appropriateness of the internship site will be determined by mutual agreement of the Faculty Advisor, the student, and the site supervisor.

## Relationship of Course to Curriculum

This is a required course for the Compass Bachelor of Science degrees in Business Administration, Counseling, and Christian Ministry. Ideally, the internship is completed during the last year of the students program of study. Internship experiences should serve as a “capstone” to the entire undergraduate focus.

## Course Goals

1. To evidence the student is capable of integrating academic training with practical expression in their specific area of study.
2. To give the student opportunity to serve in a mentored learning experience, continuing their equipping and training in real and practical ways.
3. To give the student insight into their abilities and interests, highlighting both areas of success but also areas of additional learning and focus.

## Objectives

1. A Working Knowledge of:
  - a. Various aspects of service and actions related to the interest of the student and specific focus of study for this degree program
  - b. Organizational structures and role responsibilities at the internship site, and beyond in vocational settings, with effective work habits and abilities
2. An Increased Ability to:
  - a. Put into practice the skills and information learned in the classroom
  - b. Evidence spirit of cooperation and effective communication with colleagues and supervisors
  - c. Working effectively with others in your internship setting, including professionals, staff and volunteers at the internship site
  - d. Demonstrate godly leadership, character, and professionalism
3. A Life-Shaping Commitment to:
  - a. A growing relationship with the Lord
  - b. Reflecting a positive and encouraging presence in your work and service
  - c. Self-evaluation and positive self-leadership
  - d. Seeking on-going feedback and interaction with a qualified mentor
  - e. Continued life-long learning experiences

## Grading Policy

Internships are “Pass/Fail”, based on review of the completed documentation. Specific documentation or experiences in the internship are not graded individually. Significant facts in grading will include the completion of the number of hours of service, completion of all required paperwork, and final evaluation by both the Site Supervisor and Faculty Advisor.

## Course Requirements

- All internships, sites for internships, and Site Supervisors must be approved in writing by the Faculty Advisor, prior to the start of the internship experience. Students must submit a one-page internship plan for approval by the Faculty Advisor, and should include specifics such as location, Site Supervisor, beginning and ending dates, learning expectations and responsibilities.
- Students must complete and document 135 hours of service, including up to 50 hours of preparation. These hours should be kept in an internship “log” or journal. Documentation should be submitted to the Faculty Advisor no later than the final day of the term.
- Duration of the internship experience should be no less than three months and no more than one year of documented experience. Even though documentation is submitted by specific dates, internships may continue beyond the dates arranged; extensions are fully at the discretion of the student and Site Supervisor.
- Student must make monthly updates with Faculty Advisor, by phone, email, or personal visit.
- Student must have regular contact meetings with Site Supervisor, weekly or monthly.
- Students and Site Supervisor have specific documentation to complete, and alternative forms or documentation are not acceptable unless agreed upon prior to the start of the internship experience. Documentation should be submitted to the Faculty Advisor no later than the final day of term.
- Students are to complete additional reading specific to their degree and internship experience, submitting a written report for each item. The titles should be mutually agreed upon by Faculty Advisor, Site Supervisor, and Student. Reading reports should be submitted to the Faculty Advisor no later than the final day of term.
- It is the responsibility of the student to make sure everything is documented and submitted in a timely manner, and it is not the responsibility of the Site Supervisor or Faculty Advisor.
- NOTE: Please check further in this document for any degree-specific requirements for internship experiences or documentation.

## Special Needs

Any accommodations for students with special needs must be documented and approved through the Academic Office. Contact the Vice President of Academics to initiate the process.

## Academic Integrity

Honesty in all endeavors is vital as an expression of the Christian life. Students at Crossroads College will not participate, encourage, or condone such behavior as cheating, plagiarism, or other forms of academic dishonesty. All assignments must be the student's original work for the course in which the material is submitted. When students utilize work that is not their own, proper credit must be given to the source of the information. Cheating, plagiarism, and/or any other form of dishonesty in any context should be considered a moral and ethical offense, will not be tolerated at Crossroads College, and students may be placed on probation, suspended, or expelled as a result. It is the student's responsibility to be aware of behaviors which constitute academic dishonesty and consequences, as defined in the current college catalog.

- It is expected that all work presented to the class in the form of assignments or class participation notes represent the student's original words or ideas. When anything included in a student's work (ideas, thoughts, or words) is not original with the student, all relevant sources should be cited using proper writing format and style defined by the instructor, and the extent to which the sources were used should be noted.
- Students must reference ALL sources used, including hardcopy or electronic publications, whether copyrighted or not, and all verbal or visual communication when the content comes from an identifiable source. We encourage students to use outside sources, but they must be properly referenced.
- It is expected that work done in a class is original for that particular class. If you include work done in another class, you should reference that work just like you would any other source.
- It is expected that students do their own work. It is not acceptable to have a tutor, spouse, or friend complete a portion of your assignments. It is not acceptable to have a reviewer make extensive revisions to an assignment.
- If someone types a student's paper, the final product should represent the original work of the student and not a version edited by the typist. The student is responsible for making grammar, sentence structure, and spelling corrections as a part of the learning process, and corrections by someone other than the student are inappropriate. (A reviewer may note the mistakes, but the student should make the corrections.)

### **Course – Outline of Process**
